

Viridi Organic Skin Protector is waterproof, allowing it to be used in damp conditions. Perfect for gardening, travelling, DIY, household cleaning and much more. This product has many attributes; skin repair, softening, even treating the hardest of skin.

Viridi Organic Skin Protector is effective against 99.9998% of viruses, bacteria and fungi. It is organic and natural, which means that it is suitable for use on all skin types.

Viridi Skin Protector is non-toxic and alcohol free. Note that the alcohol in Hand Sanitisers provides a quick kill but evaporates in a few seconds, meaning that users can pick up more bacteria as soon as they touch something.

Viridi Organic Skin Protector provides up to four hours protection, especially against Covid-19.

#### **Directions for usage:**

- 1 Squirt no more than a pea sized amount onto dry hands.
- 2 Rub the Skin Protector well into both sides of your hands and especially between and around the end of your fingers and under your finger nails. Also ensure you cover up to your wrist on both sides of your hands.
- 3 Wait 30 seconds for the creme to dry.
- 4 Viridi Organic Skin Protector protects you against viruses, bacteria and fungi, for up to 4 hours.
- 5 The Protector washes off with soap and water.
